

Suggestions for Additions/Deletions
along with Municipal Capital Projects Planned
May 2003

Community Council: Mid Hillside and Hillside East
Contact Name: John Weddleton

Address: 11080 Mumby Circle 99516

Rankings received

Name of Project	Add; D= Delete	Priority Rank	Description of Addition/Reason for Deletion	Zafu	Tu	Ar	Gr			
Hillside District Plan	A	1	This plan must be done to make sure Anchorage gets its best value out of capital projects done in our Council area.							
Abbott Rd Reconstruction		2	Already on list.	1	5	2	2	4		
O'Malley Rd Reconstruction	A	3	Shouldn't this be on the list already?							
DeArmoun Rd Reconstruct 2		4	Already on list	2	1	3	4	5		
Hillside LRSA's Rehab		5	Already on list	4	2	1	3			
Lower Hillside Storm Drains	D		This may be worthwhile, but appears to be outside of our council area.	5	4	4	6			
Far North Bicentennial Park Trails and Trailhead improvement		6	Already on list	7	7	1	6	5		
Hillside/Hilltop Ski Area Parking paving	A	7	The parking area shared by Hillside park and Hilltop Ski area suffers from flooding and resulting damage during late winter and breakup. This parking area is used year round as a base for many sports events in Hillside and Bicentennial Park.							6
Prospect Trailhead	A	8	This trailhead is the access point for snow machines into Chugach Park. The trailhead can be overloaded on peak days. With virtually no other facilities for snowmachines in Anchorage, this project would facilitate and encourage legal riding. Coordinate efforts with the state.							7
Horse Trail adjacent to the Homestead Trail in Bicentennial Park	A	9	As use of Bicentennial Park has increased, there are greater conflicts among trail users. Horse riders bear the brunt of this as the horses do the most damage to winter trails. A new trail adjacent to the Homestead trail and connecting to the Rovers Run trail would solve many of the problems. The trail work might be combined with fuel break work currently being done in the Park. A horse trail need not be as large as the current trail.							2
Pedestrian Overpass Rehab and Upgrades				6	6	5	8			
Greenbelt Acquisition			On MOA list. Acquire what in MHCC and HECC areas?	3	3	7	7			
Trail up Abbott along Hillside to Rabbit Creek Rd to Seward Highway	A							1	3	
Safe trail from the North side of O'Malley to O'Malley Elementary	A		Safe pedestrian access to schools is good for kids and results in less traffic. May be addressed as part of scheduled O'Malley Rd. construction.					1	1	
Gate across Huffman Road west of Hillside Drive near Audobon Dr.	A		Vandalism and dumping problems could be eliminated easily.
